

# Tyson Golder wants to bring the local back to your area

Local, friendlier and faster, these are the words Tyson is using to describe how he will lead the council if elected in the upcoming Mayoral decider in April.

Tyson plans to deliver this promise to the residents of his region by introducing five separate operating areas based on the structure before amalgamation.

Tyson will reintroduce the Booringa, Warroo, Bendemere, Bungil and Roma operating areas to commence immediately after election. 'The infrastructure is still there so transition would be relatively smooth.' Tyson believes this will promote local ownership and productivity which will naturally flow on to be a benefit to our communities at all levels.

It is common conversation in our district that decisions have been made that have affected our areas adversely, namely the amalgamation of councils into one body.

Tyson is listening carefully to the concerns of the local people and he is absolutely committed to doing his utmost to correct this situation, but to do that he needs the support of the voters.

So if you're not happy with amalgamation, your roads, the rubbish in your streets or the difficult contact with the council...

**VOTE FOR TYSON.**
